

## **Exhibit 18**

### **Compliance with Local Radio Ownership Rule (47 C.F.R. § 73.3555(a))**

By this exhibit, Mapleton License of San Luis Obispo, LLC (“Mapleton”) confirms that this transfer of control application complies with the FCC’s local radio ownership rules under the Arbitron Metro methodology.

BIA reports that there are twenty-six full-power, commercial and non-commercial radio stations located within or “home” to the San Luis Obispo, California Metro Market. Under the Commission’s local radio ownership limits as set forth at 47 C.F.R. § 73.3555(a)(1)(iii), in a radio market with between fifteen and twenty-nine (inclusive) full-power, commercial and noncommercial radio stations, a party may have a cognizable interest in up to six full-power, commercial radio stations, of which four may be in the same service (AM or FM).

The parties to this application currently hold, and after consummation of the proposed transaction would continue to hold, attributable interests in the following five stations, each of which is identified by BIA as “home” to the San Luis Obispo Metro Market and is licensed to a community located within the geographic boundaries of this market:

KPYG(FM), Cayucos, California (Facility ID No. 9851)  
KXTZ(FM), Pismo Beach, California (Facility ID No. 30108)  
KXDZ(FM), Templeton, California (Facility ID No. 70781)  
KWWV(FM), Santa Margarita, California (Facility ID No. 25960)  
KYNS(AM), San Luis Obispo, California (Facility ID No. 73039)

Because Mapleton owns no other radio stations in or near the San Luis Obispo radio market, after consummation of the transactions proposed herein, the parties to this application would hold cognizable interests in five full-power commercial radio stations in this Metro Market, including four stations in the FM radio service. Consequently, grant of this application complies with the FCC’s local radio ownership rules under the Arbitron Metro Market methodology.
