

APPLICATION FOR STATION LICENSE
EMMIS AUSTIN RADIO BROADCASTING COMPANY, LLC
KROX-FM (AUX) RADIO STATION
CH 268C2 - 101.5 MHZ - 12.5 KW
BUDA, TEXAS
August 2013

TECHNICAL STATEMENT

This Technical Statement was prepared on behalf of Emmis Austin Radio Broadcasting Company, LLC ("Emmis"), licensee of radio station KROX-FM (aux), Channel 268C2, Buda, Texas. Emmis holds an outstanding permit which authorizes a change in station location, height, and power (BXPH-20120316ACW). Emmis herein submits a license application to cover the outstanding construction permit. A calculation of the transmitter power output of the KROX-FM (aux) transmitter is attached as Exhibit A.

There are two conditions attached to this permit. The first condition states:

"Permittee has specified use of the antenna listed below to demonstrate compliance with the FCC radiofrequency electromagnetic field exposure guidelines. If any other type or size of antenna is to be used with the facilities authorized herein, THE AUTOMATIC PROGRAM TEST PROVISIONS OF 47 C.F.R. SECTION 73.1620 WILL NOT APPLY. In this case, a FORMAL REQUEST FOR PROGRAM TEST AUTHORITY must be filed in conjunction with FCC Form 302-FM, application for license, BEFORE program tests will be authorized. The request must include a revised RF field showing to demonstrate continued compliance with the FCC guidelines.

Shively 6810 (EPA Type 6), three sections, 0.5 wavelength spacing."

The specified antenna is used in conjunction with the facility.

The second condition states:

"The permittee/licensee in coordination with other users of the site must reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines."

Emmis pledges compliance with this condition.

Based on the foregoing, it is believed that KROX-FM (aux) is in compliance with the Commission's rules and that all conditions have been met.
