Mr. Doak,

Please be advised a typographical error exists in Tech Box Item 7 of the KQOH(FM) application for construction permit, BPED - 20150810AED. The correct height for the radiation center above mean sea level is 477 meters. The correct height for the site elevation is 419 meters above mean sea level. All engineering was based on a radiation center of 477 meters.

Kindly contact me if there is any question.
