

First Attachment to Exhibit 1  
First Minor Amendment to  
FCC Form 301,  
FCC File No. BPH-20100312AAQ

## STATEMENT RE THE NATURE OF THIS AMENDMENT

When Munbilla Broadcasting Properties, Ltd. (*MBPL*), the applicant, filed the subject application, MBPL did not provide an Antenna Structure Registration (*ASR*) number in response to § III-B, FM Engineering, Item No. 5. MBPL also responded “No” to § III-B, FM Engineering, Item No. 17. In both cases, this was because MBPL had not completed the consultations to satisfy the requirements of Section 106 of the Nationwide Historic Preservation Act (the *NHPA*) and of the Nationwide Programmatic Agreement (the *NPA*). Satisfying those requirements are necessary before:

- a party can apply for an ASR; and
- a party can respond “Yes” to § III-B, FM Engineering, Item No. 17, of FCC Form 301.

Upon the conclusion of those processes, MBPL would be in a position to certify compliance with the Commission’s environmental requirements, and MBPL’s sister entity, Munbilla Towers-Llano, Ltd. (*MTLL*) would be in a position to apply for and to obtain an Antenna Structure Registration for the proposed tower.

The purpose of this amendment is to report that MBPL, MTLL, and their sister entity, Munbilla Kerrville, Ltd. (*MKL*) have concluded their consultations with the relevant State Historic Preservation Office, with the Texas Parks and Wildlife Department, and with the US Fish and Wildlife Service.<sup>1</sup> For further details, please see the Second Attachment to Exhibit 32.

Based on the contents of that Second Attachment to Exhibit 32, MTLL has obtained an ASR for the tower proposed in the subject application. MBPL specifies the corresponding ASR number in its response, in this amendment, to § III-B, FM Engineering, Item No. 5.

Also based on the contents of that Second Attachment to Exhibit 32, MBPL is changing the response, in this amendment, to § III-B, FM Engineering, Item No. 17, from “No” to “Yes.”

MBPL believes that this amendment places this application in grantable condition.

---

<sup>1</sup> MKL has an application pending for station KRZS(FM), Hunt, Texas, FCC Facility ID No. 165377, FCC File No. BPH-20070718ABF, involving the same site and same structure as MBPL specifies in the subject application.
