

AMENDMENT TO PENDING APPLICATION FOR W269BN

Exhibit 1

The proposed facilities of W269BN will operate as a fill in translator for WSGC-FM, Lavonia, Georgia. The 60 dBu is within the 60 dBu of WSGC-FM. It should be noted that WSGC-FM expects to begin operations in Lavonia on or approximately January 1, 2008. W269BN will accept the condition that its construction permit for this proposed facility is contingent upon the licensing of WSGC-FM at Lavonia, Georgia. WSGC-FM was granted a change in city of license from Elberton, Georgia to Lavonia and presently operates under special temporary authority at Elberton.

WSGC-FM is licensed to Radio Elberton, Inc. Douglas M. Sutton, Jr. owns 100% interest in Radio Elberton and Georgia-Carolina Radiocasting Company, LLC licensee of W269BN.

Exhibit 2

As demonstrated by the channel study for 272D, the proposed facilities of W269BN are only short spaced to the licensed facilities of W269BN.
