

No population within 100 dBu contour

This map shows the 100 dBu 50/10 interfering contour of the proposed modification to K271BK plotted on a USGS topo map. There are no structures within the contour, and no population.

On this basis, the applicant requests waiver of 74.1204 with respect to 2nd and 3rd adjacent channel overlap (specifically KLXV Glenwood Springs CO).
