

## EXHIBIT 36

### **Request for Extension of Reduced Power DTV STA** NCE Station WTCI-DT, Chattanooga, TN (F.I.N. 65667)

Greater Chattanooga Public Television Corporation ("GCPT"), pursuant to Section 73.1635 of the Commission's rules, respectfully requests an extension of Special Temporary Authority ("STA") to allow for continued operation of reduced power DTV facilities for noncommercial educational television Station WTCI(TV/DT), Chattanooga, Tennessee.

The FCC granted STA for the reduced power operation of WTCI-DT on March 9, 2004, in FCC File No. BMDSTA-20040209ACE (*see* enclosed). The STA was most recently extended by a December 1, 2005 FCC grant in File No. BEDSTA-20050913ABQ and is currently due to expire on June 1, 2006. Pursuant to Paragraphs 34-36 of the *Memorandum Opinion and Order on Reconsideration* in MM Docket No. 00-39, FCC 01-330 (rel. Nov. 15, 2001) ("*DTV Biennial Review Reconsideration*"), GCPT requests an extension of this STA for an additional six months, or at least through July 1, 2006.

GCPT proposes no technical changes to its STA operation as outlined in the initial request and granted by the Commission. The STA specifies an ERP of 50.0 kW, a height of radiation center above average terrain of 336 meters, and geographical site coordinates of 35-12-26 N; 85-16-52 W. Grant of this extension would serve the public interest because it would allow GCPT to maintain, without interruption, its existing digital noncommercial television programming for viewers in the greater Chattanooga area.
