Dear Mr. Czelada:

RE: Antenna Azimuth
Project Number 9672

I have measured the true azimuth of the directional antenna located at 24800 Jefferson, St. Clair Shores, Michigan. Data was collected using RTK GPS on the Michigan State Plane Coordinate System, NAD83 to obtain the true azimuth. I have found the antenna to be installed at a true azimuth of 245 degrees.

Sincerely,

Tricia A. Muxlow
