**CH 257A - 99.3 MHZ - 1.4 KW**  
**CROSSVILLE, TENNESSEE**

**July 2008**

**TECHNICAL STATEMENT**

This Technical Statement was prepared on behalf of Peg Broadcasting, LLC ("PB"), licensee of radio station WPBX, Channel 257A, Crossville, Tennessee. PB has an outstanding permit to make minor changes in the facilities of WPBX (BPH-20080114ACU), which authorizes a relocation to a new site. PB herein submits a license application to cover the outstanding permit. A calculation of the transmitter power output of the WPBX transmitter is attached as Exhibit A.

There are two operating conditions/restrictions on the WPBX permit. The first states that the permit was issued pursuant to §73.215 of the rules. PB acknowledges this condition. The remaining condition states that PB will reduce the power of WPBX, or cease operation as needed, to insure that persons with access to the tower will not be exposed to radio frequency radiation levels in excess of the Commission's guidelines. PB will comply with this requirement. Based on the foregoing, it is believed that WPBX is operating in compliance with the Commission's rules and that all conditions have been met.
