Dear Applicant:

We are currently processing your above-referenced application. Our preliminary engineering review reveals that the above referenced modification application was filed for the purpose of modifying the original analog construction permit BPTTL-19910503FW.

Our records show that digital license application BLDTL-20090908ADH was granted September 11, 2009, covering the underlying flash cut digital construction permit BDFCDTL-20090730AAM, whereas superseding the analog licensed facility.

Since the facility is solely a digital facility, no prior analog licenses or construction permits are subject to modification; therefore, the above referenced construction permit IS HEREBY DISMISSED.

Sincerely
