FCC 854 Main Form	FCC Application for Antenna Structure Registration Registration Number 1234896	Approved by OMB 3060 - 0139 Est. Public Burden per Response: 30 minutes File Number: A0275034
------------------------------------	---	---

Purpose of Filing

1. Purpose of this filing: Application for the registration of a new antenna structure
2A. For purpose codes of WD or AM , provide the file number of the pending application currently on file with the FCC: A0275034
2B. If purpose codes of MD , CA , AU , DI , NT , DU or OC provide FCC Antenna Structure Registration Number: 1234896
2C. If purpose code is MD or NT , provide date constructed or Last altered (mmddyyyy):
2D. If purpose code is DI , give date of dismantlement (mmddyyyy):

Antenna Structure Ownership Information

3) Owner/Assignee FCC Registration Number (FRN): 0005870670			
4) Assignor FCC Registration Number (FRN):			
5) Legal Owner of Structure/Assignee First Name (if individual): John	Middle Initial: E	Last Name: Smith	Suffix:
6) Business Name (if other than Individual): Lay Witness Outreach, Inc.			
7) Attention To: John E. Smith			
8) P. O. Box:	And/Or	9) Street Address: 1811 Cynthiana Millersburg Road	
10) City: Paris	11) State: KY	12) ZIP Code: 40361	
13) Telephone Number: (859)234-5671		14) E-Mail Address: jesmith@mmm.com	

Contact Representative Information (If the Owner/Assignee is a business or contact representative is different from the Owner/Assignee)

15) First Name: James	MI: E	Last Name: Price	Suffix:
16) Business Name: Sterling Communications, Inc.			

17) P.O. Box:	And/Or	18) Street Address: 219 Dodd Road
19) City: Ringgold	20) State: GA	21) Zip Code: 30736-2958
22) Telephone Number: (706)965-2355		23) E-Mail Address: sterling@catt.com

Antenna Structure

24) NAD83 Antenna Structure Latitude (DD-MM-SS.S): 38-18-34.3 (N)N or S	25) NAD83 Antenna Structure Longitude (DDD-MM-SS.S): 084-09-17.7 (W)N or S
26) Address or Geographical Location: 1.1 km West of junction of US 68 & SR 32-36, Bourbon County	
27) City: Millersburg	28) State: KY
29) Elevation of site above mean sea level (refer to "a" in antenna structure examples):	244 meters
30) Overall (highest) height above ground (AGL) of an antenna structure INCLUDING all appurtenances (antennas, dishes, lightning rods, obstruction lighting, etc.) (refer to "c" in antenna structure examples):	121 meters
31) Overall height above mean sea level (sum total of items 29 and 30):	365.0 meters
32) Overall height above ground level (AGL) of the supporting structure itself WITHOUT appurtenances (refer to "b" in antenna structure examples):	120 meters
33) Indicate the code for the type of structure on which antenna will be mounted (i.e., pole, building, water tank, silo, tower, etc.) (See Instructions): TOWER	
34-35) If type of structure is an Array, provide coordinates for center of the array below:	
34) NAD83 Array Center Latitude (DD-MM-SS.S): -- (N)N or S	35) NAD83 Array Center Longitude (DDD-MM-SS.S): -- (W)N or S

FAA Notification

36) FAA Study Number: 02-ASO-0210-OE	37) Date Issued (mmddyyyy): 02/13/2002

In re: WPTJ (FM), Paris, KY
Lay Witness Outreach, Inc.
BMPED-20020315AA-T
Facility ID #93789

Dear Applicant:

This letter is in reference to the above-captioned minor change applications to modify antenna location.

A review of the application revealed that the Anti-Drug Abuse Certification from item 13, page 4 of FCC Form 340 was not completed. Therefore, WPTJ must amend the application to include the certification.

In addition, pursuant to 47 C.F.R. § 17.4(a), any proposed construction of a new antenna structure or proposed alteration of an existing antenna structure that requires notification to the Federal Aviation Administration (FAA) requires registration with the Commission prior to the proposed construction or alteration. Our records indicate that the proposed antenna structure has not been registered with the Commission. FCC antenna structure registration may be accomplished electronically via the Internet at <http://www.fcc.gov/wtb/antenna/>, or by sending a completed FCC Form 854, *Application for Antenna Structure Registration*, to:

Federal Communications Commission
Information Processing Branch
1270 Fairfield Road
Gettysburg, PA 17325-7245.

Please note that FAA approval is necessary in order to obtain FCC antenna structure registration. Following FCC registration of the antenna structure, a curative amendment to the application, which includes the antenna structure registration number, must be submitted to the Commission so that processing of your application may be completed. If the antenna structure cannot be registered within 30 days of the date of this letter, the applicant must notify the Audio Division (AD), in writing, concerning the delay.

Further action on the subject application will be withheld for a period of 30 days from the date of this letter to provide an opportunity to respond. Failure to respond within this time period will result in the dismissal of the application pursuant to 47 C.F.R. § 73.3568(a) (1). Please note that any amendment must be submitted in the same manner as the original application.

Sincerely,

A handwritten signature in black ink, appearing to read "Rodolfo F. Bonacci". The signature is fluid and cursive, with a prominent initial "R" and a stylized "B".

**** DETERMINATION OF NO HAZARD TO AIR NAVIGATION ****

The Federal Aviation Administration has completed an aeronautical study under the provisions of 49 U.S.C., Section 44718 and, if applicable, Title 14 of the Code of Federal Regulations, part 77, concerning:

Description: NEW ANTENNA TOWER
90.7 MHZ/6 KW
Location: MILLERSBURG KY
Latitude: 38-18-34.27 NAD 83
Longitude: 084-09-17.74
Heights: 397 feet above ground level (AGL)
1197 feet above mean sea level (AMSL)

This aeronautical study revealed that the structure does not exceed obstruction standards and would not be a hazard to air navigation provided the following condition(s), if any, is(are) met:

-As a condition to this determination, the structure should be marked and/or lighted in accordance with FAA Advisory Circular 70/7460-1K Change 1, Obstruction Marking and Lighting, Chapters 3(Marked), 4, 5(Red), & 12.

-It is required that the enclosed FAA Form 7460-2, Notice of Actual Construction or Alteration, be completed and returned to this office any time the project is abandoned or:

N/A At least 10 days prior to start of construction
(7460-2, Part I)

X Within 5 days after construction reaches its greatest height
(7460-2, Part II)

This determination expires on 08/13/03 unless:

- (a) extended, revised or terminated by the issuing office or
- (b) the construction is subject to the licensing authority of the Federal Communications Commission (FCC) and an application for a construction permit has been filed, as required by the FCC, within 6 months of the date of this determination. In such case the determination expires on the date prescribed by the FCC for completion of construction or on the date the FCC denies the application.

NOTE: REQUEST FOR EXTENSION OF THE EFFECTIVE PERIOD OF THIS DETERMINATION MUST BE POSTMARKED OR DELIVERED TO THIS OFFICE AT LEAST 15 DAYS PRIOR TO THE EXPIRATION DATE.

-As a result of this structure being critical to flight safety, it is

required that the FAA be kept apprised as to the status of this project. Failure to respond to periodic FAA inquiries could invalidate this determination.

This determination is based, in part, on the foregoing description which includes specific coordinates, heights, frequency(ies) and power. Any changes in coordinates, heights, frequency(ies) or use of greater power will void this determination. Any future construction or alteration, including increase in heights, power, or the addition of other transmitters, requires separate notice to the FAA.

This determination does include temporary construction equipment such as cranes, derricks, etc., which may be used during actual construction of the structure. However, this equipment shall not exceed the overall heights as indicated above. Equipment which has a height greater than the studied structure requires separate notice to the FAA.

This determination concerns the effect of this structure on the safe and efficient use of navigable airspace by aircraft and does not relieve the sponsor of compliance responsibilities relating to any law, ordinance, or regulation of any Federal, State, or local government body.

A copy of this determination will be forwarded to the Federal Communications Commission if the structure is subject to their licensing authority.

If we can be of further assistance, please contact our office at 404-305-5579. On any future correspondence concerning this matter, please refer to Aeronautical Study Number 02-ASO-0210-OE.
