REQUEST FOR SPECIAL TEMPORARY AUTHORITY
CUMULUS LICENSING LLC
WXQW AM RADIO STATION
660 kHz - 0.85/10.0 KW DAN
FAIRHOPE, ALABAMA
June 2010

This Technical Statement was prepared on behalf of Cumulus Licensing LLC (“Cumulus”), licensee of AM station WXQW, 660 kHz, Fair Hope, Alabama. Cumulus herein requests Special Temporary Authority (“STA”) to operate WXQW with antenna parameters at variance with licensed parameters.

This special temporary authority is necessary due to damage to one of the towers of the directional antenna system. This antenna was damaged by a truck which backed into one of the guy anchors. Cumulus requests authority to operate WXQW with reduced power during nighttime hours or as necessary to maintain the monitor points at levels below the licensed maximum, pending repair to the tower system. The power of the station will be monitored by the indirect method until the repairs can be completed.

We have tried to be as accurate as possible in the preparation of this request. All information contained herein was extracted from the CDBS database. We assume no liability for omissions or errors in this source.
