Exhibit 1

Non-Preclusion Showing

BNPFT-20030312AFD, Franklin Township, NJ

OM P. Tschand

April 2013

This report is filed in response to the filing window established in DA 13-427 for LPFM Preclusion Showings for Auction 83 proposals within 39 km of Spectrum Limited Markets. This report is for BNPFT-20030312AFD, Franklin Township, NJ, which is within the Middlesex-Somerset-Union, NJ market (Number 41, Embedded Spectrum Limited Market) and within the market grid.

Middlesex-Somerset-Union, NJ Market

The proposed coordinates are within the Middlesex Somerset Union embedded market grid. The proposed channel is 224 and the grid tool reports that there are no LPFM gridpoints on channels 221 through 227 in the Middlesex-Somerset-Union market. There are also no gridpoints for channels 277 or 278, the IF channels for channel 224, therefore, no preclusion by BNPFT-20030312AFD is possible.

Morristown, NJ Market

The proposed coordinates are near the Morristown, NJ embedded market. The proposed channel is 224 and the grid tool reports that there are no LPFM gridpoints on channels 221 through 227 in the Morristown market grid. There are also no gridpoints for channels 277 or 278, the IF channels for channel 224, therefore, no preclusion by BNPFT-20030312AFD is possible.

New York, NY Market

The proposed coordinates are near the New York, NY market. The proposed channel is 224 and the grid tool reports that there are no LPFM gridpoints on channels 221 through 227 in the New York grid. There are also no gridpoints for channels 277 or 278, the IF channels for channel 224, therefore, no preclusion by BNPFT-20030312AFD is possible.

Nassau-Suffolk, NY Market

The proposed coordinates are near the Nassau-Suffolk embedded market. The proposed channel is 224 and the grid tool reports that there are no LPFM gridpoints on channels 221 through 227 Nassau-Suffolk market. There also are no gridpoints for channels 277 or 278, the IF channels for channel 224, therefore, no preclusion by BNPFT-20030312AFD is possible.
