

[Exhibit 13]

Channel 6 TV Non-Interference Compliance

Regarding Facility id 148289

Channel 203

Because this application is made on channel 203, 47 C.F.R. § 74.1205(a) requires that a showing be provided proving compliance with the other provisions of § 74.1205 if the proposed translator is within 143 km of any channel 6 television station.

Page 2 of this exhibit shows all stations within 143 km. The last column in that tabulation shows the area of overlap in square kilometers of the 59 dBμ F(50,10) interfering contour with any 47 dBμ F(50,50) protected contour. Note that there is prohibitive overlap with TV6 station WCTV.

Page 3 of this exhibit is a letter form WCTV granting permission for Facility # 148289 to move to channel 203 (88.5MHz);therefore, this application is in full compliance with the provisions of § 74.1205.

Ched Keiler - CPBE
Chief Engineer
Reach Communications
Fort Lauderdale, Florida, USA

Dear Mr. Keiler,

WCTV grants permission for Reach Communications Incorporated / Edgewater Broadcasting ("Reach") to operate an FM translator W257BY, in Monticello, FL FAC# 148289 on channel 240 at power not to exceed 13 watts ERP using the vertical polarization and other specifications referred to in the attached report by Cavell, Mertz & Davis, Inc dated 9/19/06. Should any viewer of WCTV report to either party of this agreement a complaint related to interference of this facility with WCTV's broadcast, Reach at its own expense will install within ten days of such report a filter for such viewer that will eliminate the interference."

Sincerely,

K. Nick Waller
President and General Manager

cc. Jim Killinger, Chief Engineer
