**ENGINEERING STATEMENT IN SUPPORT OF REQUEST FOR
SPECIAL TEMPORARY AUTHORITY
HOLSTON VALLEY BROADCASTING CORPORATION
WKTP-LP, GATE CITY, VA, ETC.**

Holston Valley Broadcasting Corporation seeks a Special Temporary Authority (STA) to operate WKTP-LP from a site on Bays Mountain, Tennessee. The antenna, a Scala Model CA-4 with 70-degrees skew (ID 40626), would be mounted at the 38.1 meter above ground level height on an existing tower at geographic coordinates 36-31-57 N, 82-35-12 W. Maximum effective radiated power will be 0.26 kW (-5.85 dBk).

At the proposed power level, no interference would be caused to any other authorized or applied-for television facility. The protected contour would encompass Gate City and Weber City, Virginia, and vicinity.
