

Faith Communications Corp.

Certification of installation:

I certify that the installation of KMZO's antenna was done pursuant to Shively Labs instruction. It also conforms with every detail prescribed in the construction permit.

Qualifications:

I have been working as an engineer in the broadcast industry for 28 years. In that time I have installed and maintained numerous AM and FM non-directional and directional facilities along with satellite uplinks and downlinks. I hold a General Radiotelephone license with Radar endorsement (formally First Class Radiotelephone), a degree in Electronic Technology, a Amateur Radio Extra Class license, and am a member of various radio societies.
