Myrtle Point

Myrtle Creek

Tri-City

Eagle Point

White City

Blue star indicates the facility's proposed location

12-radial HAAT is -26.8 m / 60 dBu contour distance is 3.74 km

Red points and buffers represent cochannel points and their protected buffers

Orange points and buffers represent first adjacent points and their protected buffers

Green points and buffers represent second adjacent points and their protected buffers

For each set of points, three protection buffers are shown (as per 73.807)

The buffer this proposal is subject to based on its contour distance is the heavy buffer
