Re: Southern Belle, LLC (SBL)  
WHUN(AM), Huntingdon, PA  
Facility Identification Number: 28131  
Special Temporary Authority (STA)  
BESTA-20190925ABX

Dear Kristin Cantrell:

This is in reference to the request filed on September 25, 2019. SBL requests a final extension of the STA granted on January 17, 2018, to continue operating daytime using reduced power to allow time to file the required FCC Form 302 application.<sup>1</sup> In support of the request, SBL anticipates that it will file the application shortly.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for an extension of the STA IS HEREBY GRANTED, and SBL may continue to operate daytime with reduced power if needed, with no change to the licensed nighttime operation. SBL must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR §1.1310.

---

<sup>1</sup> WHUN(AM) is licensed for ND operation on 1150 kHz with 5 kW day and 0.036 kW at night, and BP-20190222AAC authorizes a reduction in daytime power to 1 kW using a new transmitter, with no change to the nighttime operation.

This authority expires on **November 25, 2019**.

Sincerely,

A handwritten signature in blue ink, consisting of a large, stylized 'J' followed by a series of loops and a long horizontal stroke extending to the right.
