Dear Applicant:

The application referenced above is dismissed

The licensee was sent a deficiency letter on October 24, 2012. You were given up to 30 days from the date of that letter to file an amendment to resolve the deficiency that was discovered during the initial review of your application as shown below. Amendments must be filed electronically. Failure to amend your application will result in the dismissal of the application.

Specifically, the protected contour of the above referenced proposed facility do not overlap with the protected contour of the existing analog license facility file number BLTTL-19960903JA.

Our records show that an amendment was filed on October 29, 2012, specifically to resolve the above referenced deficiency. Taking into account the specifications of the amendment, our current engineering analysis shows that the protected contour of the above referenced proposed facility still do not overlap with the protected contour of the existing analog license facility file number BLTTL-19960903JA.

Sincerely
