

The proposed transaction involves both a transfer of control and an assignment of the license. Because this transaction involves the assignment of the license to a new licensee, this application is submitted as an assignment of license. Below is a description of the complete transaction.

Morris Network of Alabama, Inc. ("Morris") currently is indirectly controlled by Nexstar Broadcasting Group, L.L.C. ("Nexstar") through intervening subsidiaries. Nexstar's voting members are ABRY Broadcast Partners II, L.P. (62.9 percent voting control) ("ABRY II"), ABRY Broadcast Partners III, L.P. (34.6 percent voting interest) ("ABRY III") and Mr. Perry Sook (2.5 percent voting interest). ABRY II and ABRY III are ultimately controlled by Mr. Royce Yudkoff.

Nexstar is undergoing a corporate reorganization. Nexstar and certain of its subsidiaries will merge into and become Nexstar Broadcasting Group, Inc. ("Nexstar Inc."). As part of this reorganization Morris will assign the license of television station WDHN, Dothan, Alabama to a new operating company, Nexstar Broadcasting of Alabama, L.L.C. ("Nexstar Alabama"). After the reorganization, Nexstar Inc. will indirectly control Nexstar Alabama.

The merger of Nexstar into Nexstar Inc. will occur pursuant to the completion of an initial public offering. Upon consummation of the initial public offering approximately four percent of Nexstar's voting common stock will be held by the general public. ABRY III will control Nexstar Inc. with approximately 55.33 percent voting control. In addition, ABRY II will hold an approximate 37.79 percent voting interest in Nexstar Inc. ABRY II and ABRY III will continue to be indirectly controlled by Mr. Yudkoff. Accordingly, use of FCC Form 316 is appropriate for this transaction.
