Re: Catholic Radio Network, Inc. (CRN)  
KLIM(AM), Limon, CO  
Facility Identification Number: 25185  
Special Temporary Authority (STA)  
BESTA- 20170727AGZ

Dear Mr. O Laughlin:

This is in reference to the request filed on July 27, 2017. CRN requests an extension of the STA granted on November 17, 2014, to operate with temporary facilities to allow time to file the required FCC Form 302 application (due to loss of the licensed site).<sup>1</sup> In support of the request, CRN states that additional time will be needed to construct the new facility and then file the application.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA is GRANTED, and CRN may continue to operate with the following facilities:

Geographic coordinates	39° 15' 56" N, 103° 41' 57" W (NAD 1927)
Frequency	1120 kHz
Hours of operation	Daytime only
Operating power	0.010 kW (day)
Antenna type	Morad Electronics SF 530
Overall height of antenna	10.5 meters (34.5 feet) AGL

<sup>1</sup> KLIM(AM) is licensed for ND operation on 1120 kHz with 0.25 kW daytime-only, and BMP-20170323AAO authorizes a new 50 kW DA daytime-only facility at a different site.

It will be necessary to further reduce power or cease operation if complaints of interference are received. CRN must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **March 3, 2018**.

Sincerely,

A handwritten signature in blue ink, consisting of several loops and a wavy tail, positioned above the typed name.

Joseph Szczesny, Engineer  
Audio Division  
Media Bureau
