August 16, 2011

Dear Mr. Brock,

I am the Operations Manager for The Reach FM Radio Network, which holds the construction permit for WXHM. (Permit File Number: BNPED-20071016AFN). The city of license is Middletown, Delaware. I have witnessed and supervised the installation of the Scala CL-FM antenna made by Kathrein Inc Scala Division P.O. Box 4580 Medford, Oregon. The installation was done according to the instructions from Kathrein-Scala Division and exact specifications as set forth in the construction permit.

I have worked as Operations Manager for the Reach FM since March of 1998 and have taken part and supervised more than half of the FM antenna installations of the network of 24 stations. Many of these were directional antenna installations.

Sincerely,

Dan Oetting  
Operations Manager - The Reach FM Radio Network
