Re: WJFK-FM, Manassas, Virginia
Facility Identification Number : 28625
CBS Radio Stations, Inc.
Special Temporary Authorization

Dear Mr. Benedict:

This is in reference to the request filed October 25, 2007, on behalf of CBS Radio Stations, Inc. ("CBS"). CBS requests special temporary authority ("STA") to operate a low-power FM Booster station on the campus of the University of Maryland ("UM").¹

In support of the request, CBS states that it has received complaints that the WJFK-FM signal cannot be heard in the UM football stadium and nearby parking lots. CBS states that it believes that the problem is caused by terrain blockage, and requests STA in order to test for a suitable location and power level for a permanent booster. In order to allow time to fully evaluate the performance of the booster, CBS requests STA for the maximum statutory period of six months.

Our review indicates that the proposed operation is not likely to cause interference to any other station.

Accordingly, the request for STA IS HEREBY GRANTED. Station WJFK-FM may install and operate as necessary, a temporary on-channel FM Booster with the following facilities:

Geographic coordinates:	38° 59' 25" NL, 76° 56' 51" WL (NAD 1927) ²
Channel	294 (106.7 MHz)
Effective radiated power:	not to exceed 0.01 kilowatt (H&V)
Antenna height:	not to exceed 50 meters above average terrain

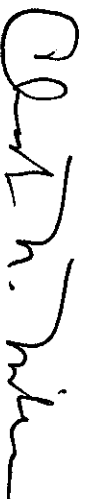

¹ WJFK-FM is licensed for operation on Channel 294B (106.7 MHz) with effective radiated power of 22.5 kW-H, 18.5-kW-V and antenna height above average terrain of 223 meters.

² (operation is authorized within a radius of 0.8 kilometer from these coordinates)

CBS must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **April 26, 2008**. Extension of this authority is not contemplated.

Sincerely,

A handwritten signature in dark ink, appearing to read "Charles N. Miller". The signature is fluid and cursive, with the first name "Charles" being the most prominent part.

Charles N. Miller, Engineer
