

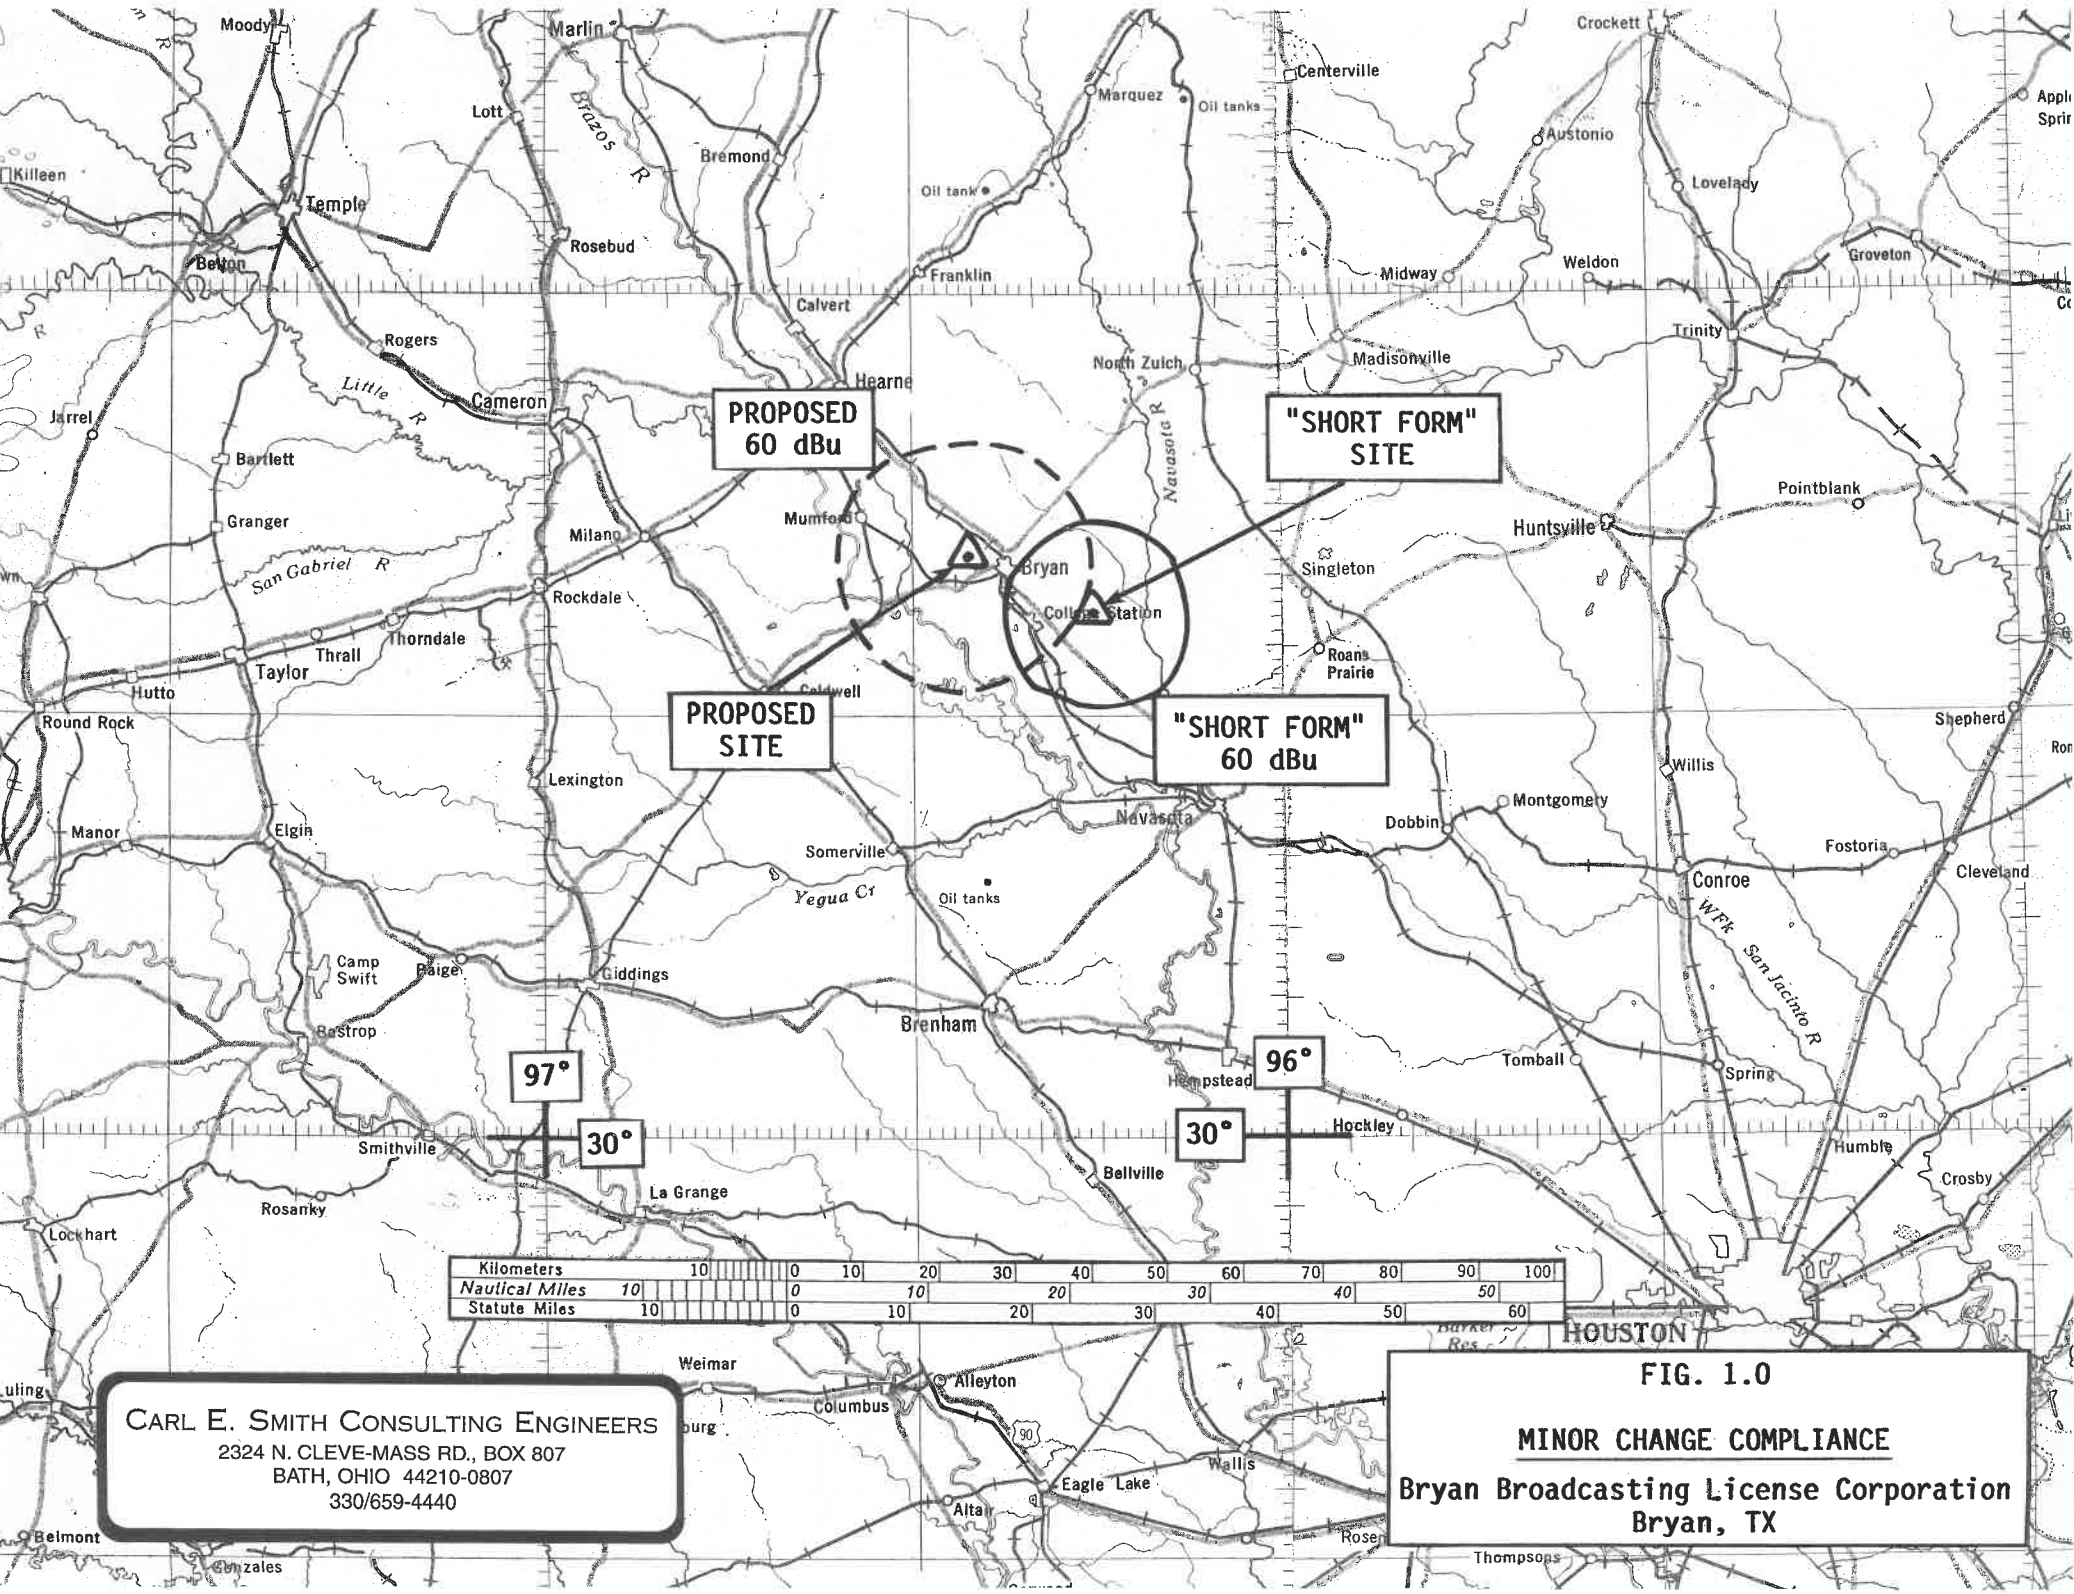

EXHIBIT 1  
(Page 1 of 2)

PROPOSED FACILITIES  
Bryan Broadcasting License Corporation  
Bryan., TX

The attached application proposes operation from a transmitter site 18 kilometers northwest of the original "short-form" application site and an increase in the antenna height. Figure 1.0 is a map exhibit depicting the predicted 60 dBu contour for the proposed facilities in relation to the predicted 60 dBu contour for the facilities proposed in the original "short-form" application. As shown in this figure, there is overlap between these predicted 60 dBu contours. As a result, the proposed modifications are considered to be a minor change, pursuant to Section 74.1233(a) of the FCC Rules.
