FM Translator Application

Hayfork, California.

FCC Form 349

File No. BMJPFT-20030314 BAL.

Question 12 (a). Overlap Requirements. Section 74.1204.

The only FM Channels/Stations that are critical to the Proposed FM Translator operation on FM Channel 259 are Second Adjacent FM Channel/Station KNNN(FM), FM Channel 257C2, Shasta Lake City, California and Third Adjacent FM Channel/Station KWPT (FM), FM Channel 262C1, Fortuna, California.

The Interference Contour for the proposed FM Translator Station (100 dbu (50,10)) extends 222 meters for the proposed FM Translator site. This Interference Contour does not Overlap with the Protected Contours (60 dbu (50,50)) of either of these Adjacent FM Channels/Stations.
