**AMENDMENT TO ENGINEERING STATEMENT COVERING
BROADCAST MULTIPLE OWNERSHIP STUDY
WVJT, LLC & RADIO GREENBRIER, LLC
WHITE SULPHUR SPRINGS, RONCEVERTE AND LEWISBURG, WEST VIRGINIA
COVINGTON AND CLIFTON FORGE, VIRGINIA**

APRIL 2008

This engineering statement and supporting tabulations and figures have been prepared on behalf of **WVJT, LLC (“WVJT”)** and **Radio Greenbrier, LLC (“Greenbrier”)**. The purpose of this statement is to demonstrate **WVJT** and **Greenbrier** compliance with *Section 73.3555* of the Commission’s Rules with respect to multiple ownership of AM and FM broadcast facilities.

Radio Greenbrier, LLC proposes common ownership in the following four stations:

WSLW(AM)	White Sulphur Spring, WV	Facility ID No. 59678
WRON-FM	Ronceverte, WV	Facility ID No. 54597
WRON(AM)	Ronceverte, WV	Facility ID No. 54596
WKCJ(FM)	Lewisburg, WV	Facility ID No. 59675

WVJT, LLC proposes common ownership in the following four stations:

WIQO-FM	Covington, VA	Facility ID No. 73158
WKEY(AM)	Covington, VA	Facility ID No. 73157
WXCF(AM)	Clifton Forge, VA	Facility ID No. 28341
WXCF-FM	Clifton Forge, VA	Facility ID No. 28340

The four Virginia stations proposed for common ownership are considered as one market since the principal community contours of each station have an area of common overlap. The four West Virginia stations proposed for common ownership are considered as one market since the principal community contours of each station have an area of common overlap.

A multiple ownership analysis was prepared considering the above described radio stations under proposed common ownership or control, which stations have overlapping principal community contours (5 mV/m for AM stations, 3.16 mV/m for FM stations) in accordance with *Section 73.3555* of the FCC Rules.

RADIO MARKETS & METHODOLOGY

The radio market is defined as the area encompassed by the principal community contours (predicted or measured 5 mV/m groundwave contour for AM; predicted 3.16 mV/m contour for FM) of the stations that are both mutually overlapping and proposed to be “commonly attributable” post-transaction. The number of radio stations in this defined radio market (i.e., the numerator) will not exceed the limits set forth in *Section 73.3555(a)*. A commonly attributable station whose contour overlaps the contour of some but not all of the contours of the stations that define the radio market was not counted toward the local radio ownership limits (i.e., is not counted in the numerator). Counties in the **Greenbrier** West Virginia market are Greenbrier, Monroe, Summers and Fayette. Counties in the **WVJT** Virginia market are Bath, Allegheny and Botetourt, Virginia. None of the communities of license are located in an Arbitron defined survey area. Since the stations are in counties which are not Arbitron Metro counties, stations counted as part of the market are determined on the basis of contour overlap. *Figure 1* depicts the principal community contours for all eight stations, as licensed, for which common ownership now exists. *Figure 1* also depicts the WXCF-FM BPH-20080114ACM, WIQO-FM BPH20070119AGS and WRON-FM BPH-20070119AGN applications for purposes of market clarification, in red. Should any of the applications for change in community of license be implemented there will be no effect in terms of 73.3555 compliance as the markets will have fewer stations.

Table I lists the AM stations whose 5 mV/m contours and FM stations whose 70 dBu contours duplicate some portion of the markets. The contours for these other AM stations are plotted on *Figure 2* in green. The contours for other FM stations are plotted on *Figure 3* in brown.

Distances to the AM coverage contours were predicted using the antenna patterns as identified in the Commission’s CDBS database using the appropriate Ground Wave Field Strength versus Distance Graph of 47 CFR 73.184. Ground conductivities were obtained from FCC Figure M3. Distances to the FM contours were determined based on the methodology of 47 CFR 73.313. Terrain data was derived from the N.G.D.C. 30-second computer database for each of the FM stations, using radials spaced every 5 degrees of azimuth.

CONCLUSION

Based on the above analysis, it is believed that the proposed common ownership of stations complies with *Section 73.3555(a)(1)(iv)* of the Commission's Rules. In the **Greenbrier** West Virginia market there are currently 8 other FM and 2 other AM stations considered in this study which have principal community contours that overlap some portion of the attributable stations principal community contours. In the **WVJT** Virginia market there are 6 other FM and no AM stations considered in this study which have principal community contours that overlap some portion of the attributable stations principal community contours. Stations in each market are:

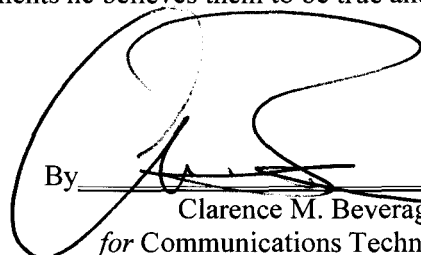

Virginia Market: Attributable Stations – 4 Stations (2 AM & 2 FM)
WXCF-AM, WXCF-FM, WKEY(AM) and WIQO-FM (Lic.)

Non Attributable Stations in Market = 6

West Virginia Market: Attributable Stations – 4 stations (2 AM & 2 FM)
WSLW(AM), WREN-FM, WRON(AM) and WKCJ(FM)

Non Attributable Stations in Market = 10

The foregoing was prepared on behalf of **WVJT, LLC** and **Radio Greenbrier, LLC** by Clarence M. Beverage of *Communications Technologies, Inc.*, Marlton, New Jersey, whose qualifications are a matter of record with the Federal Communications Commission. The undersigned certifies, under penalty of perjury, that the statements herein are true and correct of his own knowledge, except such statements made on information and belief, and as to these statements he believes them to be true and correct.

The map displays the Southeastern United States, including parts of Virginia, North Carolina, South Carolina, and Georgia. It shows the coverage areas for several radio stations, with major cities and state boundaries labeled. The legend indicates that Gray contours represent 5 mV/m, Blue contours represent 70 dBu License, and Red contours represent 70 dBu Application.

STATION COVERAGE AREAS:

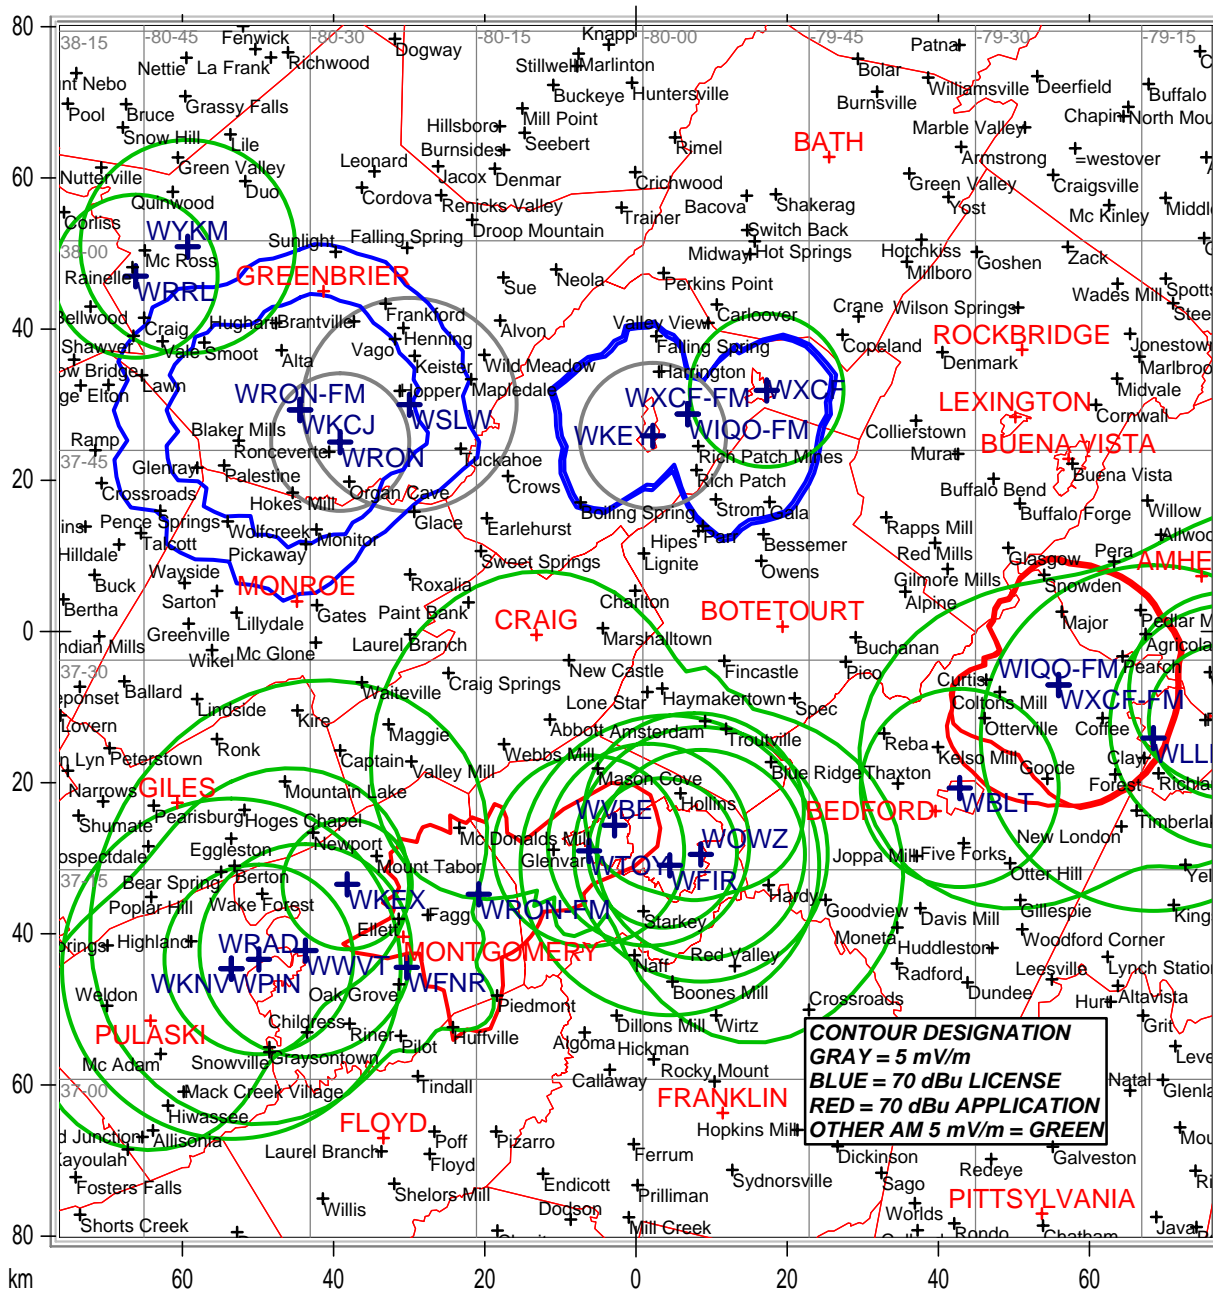

- WRON-FM:** Coverage area centered around Greensboro, NC, with a blue outline.
- WKCJ:** Coverage area centered around Greensboro, NC, with a blue outline.
- WSLW:** Coverage area centered around Greensboro, NC, with a blue outline.
- WXCF-FM:** Coverage area centered around Greensboro, NC, with a blue outline.
- WIQQ-FM:** Coverage area centered around Greensboro, NC, with a blue outline.

CONTOUR DESIGNATION:

- GRAY = 5 mV/m
- BLUE = 70 dBu LICENSE
- RED = 70 dBu APPLICATION
