### **Changing Our Community One Voice at a Time (feat. Experts by Experience)**

T.O.P.S is non for profit organization recognized by the State of Alabama on September, 26, 2003. TOPS is based in Dothan, Al and has efficiently served all walks of life for the past 13 years in this community. We have progressed from passing out pizza to the homeless in a car, and preaching the gospel of the lord under a tent to having a Soup Kitchen, Restoration/Transitional Houses and a Multi-Purpose Resource Center to serve and educate the community. We offer a vast array of social and educational services throughout the surrounding geographical area.

T.O.P.S recognizes educational barriers between students and families. To insure young people of the community are receiving proper educational assistance. It's vital that parents receive educational guidance, and the support they need to help achieve the betterment of their children's future. TO.P.S will offer all resources needed to acquire such said goal. Also we will offer Jail /Prison Prevention to our listening audience because right now the society we live is basing the lifestyles they see on television as a right way to pursue happiness by achieving the love of money in a very bias way. Our community is fueled with drugs, homelessness and gangs, so we as adults need to help get morals back intact. We know that our listening audience needs this because of what we see on a daily basis around us. The community gravitates to what is happening in their everyday lifestyles.

Programming will be helpful to the youth from (6am-8am) to target at risk youth to better enhance their daily environment to take to school and have a topic of everyday concern, which involves a lot of peer pressure and bullying. Following that we can encounter our parents with daily inspirational thoughts during the at home family time from (4pm-6pm) which will enhance the likelihood of getting back to having discussions instead of letting our children raise themselves by what they see on television. We are dealing with a lot of community issues and it would be great to have it broadcasted on a daily basis to show the community that there is help for them. We have a lot of issues that need a response, that some of the community is afraid to ask. We need to be that voice that needs to be heard here.
