In re: K292GQ, McCleary, WA  
BPFT-20171213AAA  
Facility ID # 146938

Dear Applicant:

This refers to the above-captioned FM translator application for K292GQ, McCleary, Washington.

An engineering study has revealed the application violates 47 C.F.R. § 74.1204(a) with respect to KJET(FM), Raymond, WA (BPH-20150422ABG). Section 74.1204(a) states that an application for a FM translator station will not be accepted if the proposed operation would involve prohibited overlap of predicted field strength contours with any other authorized station. The proposed 40 dBu interference contour overlaps with the 60 dBu protected contour of KJET(FM). This violation was not addressed.

In light of the above, the application BPFT-20171213AAA is unacceptable for filing pursuant to 47 C.F.R. § 73.3566(a) and IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

James D. Bradshaw  
Deputy Chief  
Audio Division  
Media Bureau
