Pitkin County Translator Department
76 Service Center Road
Aspen, CO 81611

Attention: Ms. Renee Hassle

Ladies and Gentlemen:

This letter is written with regard to your proposal to modify FM translator K269DS (Facility ID # 52725), Aspen, Colorado, by switching the station's output frequency of 101.7 MHz, either to 101.5 MHz or 101.9 MHz. Both channels are first adjacent to KTUN (FM)'s assigned frequency of 101.7 MHz. Aspen is within the protected contour of our station and we operate a translator in that city that rebroadcasts KTUN.

Please be advised that KTUN, which has commenced program tests on 101.7 MHz, has no objection to any potential interference which the Federal Communications Commission concludes would be caused to KTUN by operations of your translator on a channel that is first adjacent to KTUN's assigned frequency. We understand that because of the terrain and other factors, any interference to our station from an adjacent channel translator in Aspen would be *de minimis*. If, however, your translator causes harmful electrical interference to KTUN, you have represented that you will take prompt remedial action and, if necessary, will seek an alternate channel.

Accordingly, KTUN has no objection to favorable action on your proposal to operate K269DS on 101.5 MHz or 101.9 MHz.

This letter may be filed with the FCC in conjunction with your application.

Very truly yours,

A handwritten signature in black ink that reads "Stephen R. Wodlinger". The signature is written in a cursive style with a large, stylized "W".

Stephen R. Wodlinger
VP-GM, NRC Broadcasting
