Facility Id No.: 131155

Dear Applicant:

We are currently processing your above-referenced application. Our engineering review reveals the following activity subsequent to the initial review of the above referenced modification application:

You filed a minor change to a licensed facility BPTT-20051208AEQ which would have superseded the pending modification construction permit BMPTT-20050124AJJ and at that time rendered two construction permits pending at the same time; therefore, the modification construction permit as referenced above IS HEREBY DISMISSED.

Sincerely
