Re: KIID(AM), Sacramento, California  
Facility Identification Number: 65482  
Radio Disney Sacramento, LLC  
Special Temporary Authorization

Dear Counsel:

This is in reference to the request filed January 14, 2010, on behalf of Radio Disney Sacramento, LLC ("RDS"). RDS seeks extension of the special temporary authority ("STA") granted on July 17, 2009, to operate Station KIID with an emergency nondirectional antenna and reduced power.<sup>1</sup> In support of the request, RDS provides a report of its progress toward restoring licensed operation since two of the station's towers and associated equipment were destroyed by a fire.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has made progress toward restoration of licensed operation, but additional time is required for completing the work. Thus, extension of STA is warranted.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station KIID may continue to operate with an emergency nondirectional antenna and reduced power not to exceed

---

<sup>1</sup> KIID is licensed for operation on 1470 kHz with 5 kilowatts daytime and 1 kilowatt nighttime, employing different directional antenna patterns daytime and nighttime (DA-2-U).

1.25 kilowatts daytime and 0.25 kilowatt nighttime. It will be necessary to further reduce power or cease operation if complaints of interference are received. RDS must notify the Commission when licensed operation is restored.<sup>2</sup> RDS must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **August 2, 2010**.

Sincerely,

A handwritten signature in blue ink, appearing to read "Charles N. Miller".

Charles N. Miller, Engineer
