

EXHIBIT 1

Sections Affected by Amendment

This is a minor amendment to the WATE-DT, Channel 26, Knoxville, Tennessee, application to modify construction permit, FCC File No. BMPCDT-20011127ABC. The data and responses to all questions remain the same with the exception of Section III-D, DTV Engineering, Question 11 (interference) which has been changed to “No” due to contour overlap to Class A stations. Exhibit 41 has been added to provide:

- A) Justification for requested height/ERP as per Section 73.622(f) and,
- B) Longley-Rice showing in support of waiver request for Class A station contour overlap.

All of the environmental and interference analysis presented in the original engineering statement, dated November 2001 (Exhibit 43) remains valid and is left unchanged.
