Dear Paul:

This is to advise that WSYX-TV has no objection to the submission of a proposed minor modification application for Cedarville University's NCE-FM station WCDR licensed to Cedarville, Ohio (Fac. Id. 65515). We understand that the application will propose a change in the Vertical ERP and directional pattern ONLY and will affect an overall increase of 3.3 percent population which will only marginally increase predicted interference to WSYX-TV's existing Channel 6 facilities. WSYX's consent to this filing is based on assurances from Cedarville that it will take any necessary steps to correct any interference caused by the modified WCDR facilities to the WSYX facilities on Channel 6 through the end of the NTSC transition to digital in February 2009. WSYX, through its undersigned authorized signatory, hereby consents to the filing of the application and the submission of this consent letter with the application.

Sincerely,

Name:
