Re: Capstar TX, LLC (Capstar)
WOFX (AM), Troy, NY
Facility Identification Number: 37233
Special Temporary Authority (STA)
BESTA-20170609AAC

Dear Mr. Davis:

This is in reference to the request filed on June 9, 2017. Capstar requests a further extension of the STA granted on October 14, 2010, to continue to operate with parameters at variance to allow time to file the required FCC Form 302 application.¹ In support of the request, Capstar states that states that additional time is needed to prepare and file the application.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA IS HEREBY GRANTED, and Capstar may continue to operate with nighttime parameters at variance and/or reduced power while

¹ WOFX is licensed for operation on 980 kHz with 5 kW day (ND) and 5 kW night (DA).

maintaining monitor points within licensed limits. It will be necessary to further reduce power or cease operation if complaints of interference are received. Capstar must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR §1.1310. A request for a final STA extension must be filed on the date shown below (unless the new license has been granted).

This authority expires on **January 12, 2018**.

Sincerely,

A handwritten signature in blue ink, consisting of a large, stylized 'J' followed by a series of loops and a long horizontal stroke extending to the right.

Joe Szczesny, Engineer
