James T. Shea, Jr., CEO/President  
Mapleton License of Spokane, LLC  
60 Garden Court, Suite 300  
Monterey, CA 93940

Re: Mapleton License of Spokane, LLC (MLS)  
KJRB(AM), Spokane, WA  
Facility Identification Number: 11235  
Special Temporary Authority (STA)  
BESTA- 20180531AAC

Dear Mr. Shea:

This is in reference to the request filed on May 31, 2018. MLS requests an extension of the STA granted on May 11, 2017, to continue operating at night with parameters at variance pending further action on BP-20180308AAC to make permanent changes to the antenna system.<sup>1</sup> In support of its request, we note that the application remains pending before the Commission at this time.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

---

<sup>1</sup> KJRB(AM) is licensed for DA operation on 790 kHz with 5 kW day and 3.8 kW night, using different patterns, and BP-20180308AAC proposes to change from DA to ND using the existing taller tower with reduced power.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and MLS may continue to operate at night with parameters at variance from licensed values and/or reduced power while maintaining monitor points within licensed limits (with no change to the daytime 5 kW licensed operation). MLS must reduce power or cease operation if complaints of interference are received, and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **December 4, 2018**.

Sincerely,

A handwritten signature in blue ink, consisting of a large loop on the left and a more complex, scribbled shape on the right.
