Dear Applicant:

This refers to the above-captioned application filed for a noncommercial educational FM Station minor modification to a construction permit.

An engineering study of the application reveals that it is in violation of Section 73.509 of the Commission's Rules¹ with respect to licensed first-adjacent Class A Station WCLH (BLED-20060323AHZ) Wilkes-Barre, PA. Specifically, the proposed interfering contour (54 dBu) would overlap as much as 1 kilometer in the arc of 229° to 232° to the protected contour (60 dBu) of WCLH.

In light of the above, Application, BMPED-20070806AFJ is unacceptable for filing pursuant to Section 73.3566(a) of the Commission's Rules² and is HEREBY DISMISSED. This action is taken pursuant to Section 0.283 of the Commission's Rules.³

Sincerely,
