

Three Angels Broadcasting Network
Dan Peek—Engineer
P.O. Box 220
West Frankfort, Illinois 62896

January 10, 2011

In evaluating the proposed digital displacement for K48KJ-D FID 130199, an outgoing interference study was executed on the proposed design in the attached application using the OET-69 Longley Rice methodology. The stations listed in the table below showed possible interference. When these stations were evaluated for outgoing interference, there was zero percent interference present found in each case when rounded to the nearest whole percent.

Three Angels Broadcasting Network requests a waiver of the 10km move rule since the proposed station encompasses almost all of the on-air coverage. Attached below is a coverage map showing the original station coverage and the proposed coverage.

STATIONS CONSIDERED IN THE OUTGOING INTERFERENCE STUDY
