

TECHNICAL STATEMENT
RADIO MULTIPLE OWNERSHIP ANALYSIS

This statement and the attached figures were prepared on behalf of a licensee subsidiary of Clear Channel Communications, Inc. ("CCC"). We propose to modify the facilities of WGY(AM), Schenectady, NY. A multiple ownership analysis was prepared considering the following radio stations under present or proposed common ownership, time brokerage or joint sales:¹

Table 1: Proposed Commonly Owned, Brokered or Jointly-Sold Stations Studied and Associated Arbitron Metro² Information

Calls	Fac ID	Band	Geographic Arbitron Market	Declared Arbitron Market
WGY-FM	55490	FM	Albany-Schenectady-Troy, NY	Albany-Schenectady-Troy, NY
WTRY-FM	8563	FM	Albany-Schenectady-Troy, NY	Albany-Schenectady-Troy, NY
WRVE	15330	FM	Albany-Schenectady-Troy, NY	Albany-Schenectady-Troy, NY
WKKF	17030	FM	Albany-Schenectady-Troy, NY	Albany-Schenectady-Troy, NY
WPYX	73911	FM	Albany-Schenectady-Troy, NY	Albany-Schenectady-Troy, NY
WGY	15329	AM	Albany-Schenectady-Troy, NY	Albany-Schenectady-Troy, NY
WOFX	37233	AM	Albany-Schenectady-Troy, NY	Albany-Schenectady-Troy, NY
WHUC	63531	AM	Non-Metro	Non-Metro
WCTW	63527	FM	Non-Metro	Non-Metro
WZCR	63532	FM	Non-Metro	Non-Metro

Since certain of these stations have overlapping principal community contours (5 mV/m for AM stations, 3.16 mV/m for FM stations), or are located in, or home to, the same Arbitron Metro market, an ownership study has been prepared in accordance with the Federal Communications Commission's local radio ownership rule.³

We do not have an attributable interest in any other station with a principal community contour that overlaps or intersects the principal community contour of WGY(AM), as proposed, which is not located in an Arbitron market, or regardless of contour overlap, which is located in the same Arbitron Metro⁴ as WGY(AM). The community of license of WGY(AM) is located within the Albany-Schenectady-Troy, NY Metro. WGY(AM) is reported by BIA as being "Home" to the Albany-Schenectady-Troy, NY Metro. Contour overlap of the station to be modified, as depicted in **Figure 1**, also occurs with commonly-owned stations whose communities of license are located in the Albany-Schenectady-Troy, NY Arbitron Metro market, and commonly owned stations whose communities of license are located outside any Arbitron Metro market.

¹ None of the following stations are attributable by virtue of a time brokerage agreement or joint sales agreement.

² Arbitron data presented herein is obtained from BIA's "Media Access Pro."

³ See 47 C.F.R. § 73.3555(a).

⁴ A station is considered to be "located in an Arbitron Metro" if the station's community of license is located within the boundaries of that Metro, or, the station is listed as "Home" to that Metro by BIA.

Arbitron Market Study

WGY(AM) is reported by BIA as being "Home" to the Albany-Schenectady-Troy, NY Metro. This proposal is in compliance with the local radio ownership rules for that Arbitron Metro, as evidenced by *Table 2* below:

Interim Contour-Overlap Analysis

Because of contour overlap with stations which have a community of license located outside any Arbitron Metro, an interim contour-overlap analysis is also set forth in this statement.

Interim Contour-Based Radio Markets

A "radio market" under the interim contour-overlap method is the area encompassed by the mutually overlapping principal community contours of the stations under common-ownership or attribution. Here, such mutually overlapping contours form one (1) "radio markets" for interim contour-overlap analysis under the Commission's rules as shown below in *Table 3*.

Table 3, Table of Contour Markets

Radio Market	
4-FM 2-AM	
WPYX	FM
WRVE	FM
WZCR	FM
WCTW	FM
WGY	AM
WHUC	AM

Count of Stations in Defined Markets

The number of radio stations in a contour-overlap "radio market" is determined by counting the operating stations having principal community contours which overlap or intersect the principal community contours which define the radio market, plus the subject commonly owned or attributable stations, excluding any stations whose transmitter sites are further than 92 kilometers from the perimeter of mutual overlap, and excluding any commonly owned or attributable stations that do not serve to define the market, as depicted in ***Figure 2***.

In the interim contour-overlap "radio market" studied herein, there exists the required number count of radio stations, including the subject co-owned stations, which overlap or intersect with the defined "radio market." Figure 3 is a tabulation of the radio stations identified in the contour-overlap "radio market".

Only known licensed, operating radio stations were included in this tabulation. Distances to contours for AM stations were predicted using the antenna patterns as identified in the Commission's AM database and the appropriate Ground Wave Field Strength versus Distance Graph of 47 C.F.R. § 73.184. Ground conductivities were obtained from FCC Figure M3. Distances to the FM contours were determined based on the method of 47 C.F.R. § 73.313. Terrain data was derived from the N.G.D.C. 30 second computer database for each of the FM stations using radials spaced every 45 degrees of azimuth.

Conclusions

In the Arbitron Metro market studied herein, there are at least 45 radio stations, including the subject commonly-owned 2-AM / 5-FM stations, which are home to the Albany-Schenectady-Troy, NY Metro. This proposal does not affect the existing number of commonly-owned stations in the subject Arbitron Metro.

In the interim contour-overlap "radio markets" studied herein, there is at least the minimum required count, including the commonly-owned stations.

Based on the above, it is concluded that the proposed modification complies with Section 73.3555(a) of the FCC Rules.

Respectfully submitted,

Troy G. Langham
FCC Engineering Supervisor
3 September 2013
