Since certain of these stations have overlapping principal community contours (5 mV/m for AM stations, 3.16 mV/m for FM stations), or are located in, or home to, the same Arbitron Metro Markets, an ownership study has been prepared in accordance with the Federal Communications Commission's local radio ownership rule.³

CCC does not have an attributable interest in any other radio station with a principal community contour that overlaps or intersects the principal community contour of KODJ(FM) as proposed, or which is located in the same Arbitron Metro⁴ as KODJ(FM)). The community of license of KODJ(FM) is located within the Salt Lake City-Ogden-Provo, UT Arbitron Metro, and KODJ(FM) is reported by BIA as being "Home" to that Metro only. Contour overlap of the

station to be modified, as depicted in Figure 1, also occurs with commonly-owned stations whose communities of license are located in the Salt Lake City-Ogden-Provo, UT Arbitron Metro market.

Arbitron Market Study

KODJ(FM) is reported by BIA as being "Home" to the Salt Lake City-Ogden-Provo, UT Arbitron Metro. This proposal is in compliance with the local radio ownership rules for that Arbitron Metro, as evidenced by Table 2 below:

Interim Contour-Overlap Analysis

Because the principal community of the station to be modified, and the communities of all commonly-owned or attributable stations with overlapping principal contours with the station to be modified, are located in an Arbitron Metro, an interim contour-overlap analysis is not required.

Radio - Television Multiple Ownership

A separate Radio-Television Cross Ownership Statement is being submitted with this application that demonstrates that the common ownership of one television station and seven radio stations in the subject DMA complies with Section 73.3555(c) of the FCC Rules.

Conclusions

In the Arbitron Metro Radio Market studied herein, there are at least 65 radio stations, including the subject commonly-owned 2-AM / 5-FM stations, which are home to the Salt Lake City-Ogden-Provo, UT Metro. This proposal does not affect the existing number of commonly-owned radio stations in the subject BIA Metro or DMA.

Based on the above, it is concluded that the proposed modification complies with Section 73.3555(a) of the FCC Rules.

Respectfully submitted,

Troy G. Langham
