In re: WRVX(FM), Cameron, MO
Facility I.D. No.: 172360
VCY America, Inc.
BLED-20121106ACT
Request for Program Test Authority

Dear Permittee:

This letter is in reference to WRVX's request for program test authority ("PTA") filed November 6, 2012 and the simultaneously filed application for license to cover Construction Permit BNPED-20071012ADM, as modified by BMPED-20120504ABX. The PTA request included exhibits demonstrating compliance with special operating conditions regarding the directional antenna.

A review of WRVX's request for program test authority reveals that the facilities were constructed pursuant to the terms and conditions of Construction Permit BMPED-20120504ABX, and the provisions of 47 C.F.R. § 73.1690(c)(2). Accordingly, Program Test Authority IS HEREBY GRANTED to commence operation pending further action on WRVX's license application. The maximum effective radiated power is 27.5 kilowatts (H&V) and the transmitter power output is 5.6 kilowatts.

Sincerely,

Rodolfo F. Bonacci
Assistant Chief
