Upon its failure to do so, the Sewerage and Water Board is authorized to remove the said improvements and charge the cost thereof to the Lessee. The condition of this obligation is such that if the said Starr WBOOK, Inc., shall carry out and discharge its obligations as specified in Paragraph Four (4) above, with reference to the removal of all improvements from the leased premises, and shall, in every respect, conform to and comply with said engagements, then this obligation shall be null and void and the said Surety discharged; otherwise, the same to be and remain in full force and effect. The obligation of the Surety is a continuing one for each month to month period from date hereof, and thereafter may be renewed from year to year by issuance of a continuation certificate. The Surety may cancel its obligation upon giving a thirty (30) day written notice to the Sewerage and Water Board of New Orleans of its intention to cancel such bond.

If, during the life of this contract, the bond furnished by Lessee be cancelled for any reason whatsoever, and should Lessee fail to secure a new bond to substitute therefor, and, at the expiration of this lease, for any reason, Lessee should not have an existing bond as provided for herein, then, in that event, Lessee hereby authorizes, empowers and directs the Board to sell, transfer and deliver any and all improvements that may be erected on the leased premises by the Lessee and to have the same removed therefrom. Said sale is to be for any consideration which the Board may, in its sole discretion, consider reasonable and fair. Re: Christian Broadcasting of New Orleans, Inc.  
WBOK (AM), New Orleans, Louisiana  
Facility Identification Number: 10917  
Special Temporary Authority

Dear Counsel:

This is in reference to the request filed July 24, 2006, on behalf of Christian Broadcasting of New Orleans, Inc. ("CBNO"). CBNO requests special temporary authority ("STA") to operate Station WBOK with emergency antenna facilities pursuant to Section 73.1680.<sup>1</sup> In support of the request, CBNO states that the upper portion of the station's licensed antenna tower was damaged by Hurricane Katrina on August 29, 2005, and that the station has been silent since then. CBNO requests STA for operation with the remaining portion of the tower.

Section 73.1680 of the Commission's rules provides for operation with emergency antenna facilities following damage to authorized antenna systems, provided that an informal request for continued use of an emergency antenna is filed with the Commission within 24 hours.

Accordingly, the request for STA IS HEREBY GRANTED. Station WBOK may continue to operate with emergency antenna facilities as described above. It will be necessary to further reduce power or cease operation if complaints of interference are received. CBNO must notify the Commission when licensed operation is restored.<sup>2</sup> CBNO must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310.

This authority expires on **February 4, 2007**.

Notwithstanding the grant of this STA or the expiration date specified herein, the station's license will expire as a matter of law upon twelve consecutive months of silence. See Pub. Law No. 104-104, 110 Stat. 56, Section 403(1) (1996) and *Order, Silent Station Authorizations*, FCC 96-

---

<sup>1</sup> WBOK is licensed for operation on 1230 kHz with 1 kilowatt daytime and 1 kilowatt nighttime, employing a nondirectional antenna (ND-1-U).

<sup>2</sup> See 47 CFR §§ 73.45(c), 73.51, 73.54, 73.61(b).

218 (released May 17, 1996). *See also Public Notice*, Expedited Processing of Applications Filed by Silent Stations, DA 96-818 (May 22, 1996). The licensee must notify the Audio Division immediately upon resumption of broadcasting.

**STA Advisory:** Section 309(f) of the Communications Act of 1934, as amended, authorizes the Commission to grant STA in cases of "extraordinary circumstances requiring temporary authorizations in the public interest and when delay in the institution of the temporary operations would seriously prejudice the public interest." However, Section 309(f) is not a means by which a licensee/permittee may circumvent established processing procedures which require the filing of an application, nor is it a means by which a broadcaster may enhance his facility or make operation more convenient for the broadcaster. Stations operating with less than licensed facilities under temporary authorities can be viewed as receiving the benefit of a larger protection area than that in which they are currently providing service.

Accordingly, Special Temporary Authorities by nature are to be temporary and are not intended for extended use. Licensees of stations operating under temporary authorities are reminded that timely restoration of permanent facilities is the responsibility of the licensee and should be undertaken expeditiously. Any request for extension of special temporary authorities carries an increased burden with each subsequent request.

Therefore, requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Sincerely,

Charles N. Miller, Engineer  
Audio Division  
Media Bureau
