Atlanta, GA 30305

Re: WZPW (FM), Peoria, IL  
Radio License Holding CBC, LLC  
Facility Identification Number: 3464  
Special Temporary Authority (STA)  
BSTA-20150220AAR

Dear Licensee:

This is in reference to the request filed February 20, 2015, on behalf of Radio License Holding CBC, LLC ("RLH-CBC"). RLH-CBC explains that WZPW experienced a burn-out in its transmission cable, rendering the facility inoperable. RLH-CBC requests Special Temporary Authority to operate with temporary facilities from an alternate site until repairs to the licensed facility can be effected.

The request for STA IS HEREBY GRANTED. Station WZPW may operate with the following facilities:

Channel	222A (92.3 MHz)
Coordinates:	40° 41' 57" NL, 89° 36' 04" WL
Effective radiated power:	0.52 kilowatts (H&V)
Antenna height:	
above ground:	50 meters
above mean sea level:	235 meters
Above average terrain:	45 meters

RLH-CBC must notify the Commission when licensed operation is restored. RLH-CBC must use whatever means are necessary to protect workers and the public from radiofrequency exposure in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **August 25, 2015**.

-----

**STA Advisory:** Section 309(f) of the Communications Act of 1934, as amended, authorizes the Commission to grant STA in cases of "extraordinary circumstances requiring temporary authorizations in the public interest and when delay in the institution of the temporary operations would seriously prejudice the public interest." However, Section 309(f) is not a means by which a licensee/permittee may circumvent established processing procedures which require the filing of an application, nor is it a means by which a broadcaster may enhance his facility or make operation more convenient for the broadcaster. Stations operating with less than licensed facilities under temporary authorities can be viewed as receiving the benefit of a larger protection area than that in which they are currently providing service.

Accordingly, Special Temporary Authorities by nature are to be temporary and are not intended for extended use. Licensees of stations operating under temporary authorities are reminded that timely restoration of permanent facilities is the responsibility of the licensee and should be undertaken expeditiously. Any request for extension of special temporary authorities carries an increased burden with each subsequent request.

Therefore, requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Sincerely,

Dale Bickel
