Re: Further WPOZ Modifications

Dear Mr. Hoge:

This letter provides the further consent of Post-Newsweek Stations, Orlando, Inc., licensee of WKMG-TV, Orlando, Florida ("WKMG"), with respect to applications Central Florida Educational Foundation, Inc. ("CFEF") plans to file with the FCC for its Station WPOZ, Union Park, Florida.

We understand that CFEF plans to request the FCC to authorize: (1) a modification of the directional pattern of the current WPOZ 100 kW construction permit, BMPED-20070907AEU; (2) an interim facility for WPOZ at the Lake Pickett transmitter site (ASRN#1026744) to utilize a circularly-polarized non-directional antenna with an effective radiated power of no greater than 15 kW; and (3) a modification of the authorized power of WPOZ's currently-licensed auxiliary facility, BXMLED-20030407ABF, to specify operations with an effective radiated power not to exceed 15 kW (together, the "Applications"). There will be no change in sites proposed in any of the Applications.

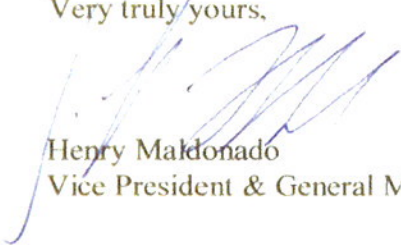

WKMG consents to FCC approval of the Applications, subject to the following conditions:

1. If CFEF is notified that its operations create any interference to WKMG-TV's viewers, CFEF will, at its own expense, take all steps necessary to correct the interference as quickly as possible, but in no event no later than 30 days after initial notification. If CFEF receives notification of interference to WKMG-TV from any source other than WKMG, CFEF will notify WKMG within 24 hours of the complaint.

2. This consent is specific to Applications as described above. WKMG does not consent to operations from any tower site other than the sites specified in the current authorizations for the facilities described above, nor does it consent to operation with specifications that differ from those described above.

Pursuant to our prior arrangement, WKMG consents to FCC approval of the Applications but only to the extent stated above.

Very truly yours,

Henry Maldonado
Vice President & General Manager

Agreed and executed by the undersigned
this 23 day of October, 2008.

CENTRAL FLORIDA EDUCATIONAL FOUNDATION, INC.
