

Educational Purpose

RCN Ministry Inc., is a not-for-profit corporation. The corporation will serve an educational purpose through the operation of WLIX-LP. The WLIX-LP will keep its listeners informed about community events and activities on a daily basis. The Station will also act as an outlet for the Hispanic community to voice opinions about growth and development of that community. This activity will provide the Station's listeners with a diverse program of political and cultural viewpoints with an emphasis on Christian living.

The philosophy of the corporation is to provide a radio station which will allow the Hispanic community an opportunity to hear Christian music, Ministries and viewpoints which are not currently being broadcast by the commercial stations in the area. The corporation's board of directors have discussed the needs for a community radio station with many of the community's residents and they have received overwhelmingly positive feedback on the need for such a Station as WLIX-LP.
