

Compliance with 47 C.F.R. 73.207

The proposed facility meets all minimum distance separation requirements with regard to co-channel, first, second, or third adjacent channel stations, and those separated by 53/54 channels, except the licensed facility of the following station:

Station	Channel	City of License	Facility ID	Distance Short-Spaced
KVCR	220B	San Bernardino, CA	58794	17.2km

This application proposes contour protection (47 C.F.R. 73.215. 47 C.F.R. 73.215(e)) for KVCR.

The minimum separation requirement between a class A and a class B facility (KSOQ-FM and KVCR), which are first adjacent channels, is 96 km. Exhibit 18A shows that KVCR is separated from the proposed facility by 95.81 km.

Therefore, the proposed facility is permitted to use contour protection toward the short-spaced facility (See Exhibit 20 for compliance with contour protection requirements).

KSOQ-FM.P Site Spacing
