

APPLICATION FOR STATION LICENSE
CUMULUS LICENSING LLC
W265CB FM TRANSLATOR STATION
CH 265D - 100.9 MHZ - 0.082 KW
TOLEDO, OHIO
April 2010

TECHNICAL STATEMENT

This Technical Statement was prepared on behalf of Cumulus Licensing LLC ("Cumulus"), licensee of FM translator station W264AK, Channel 264D, Toledo, Ohio. Cumulus has a construction permit (BPFT-20091216AAK) to make minor changes to the W264AK facilities. As a result of the minor change, the operating channel will be 265D. Therefore, the call sign of the translator changes to W265CB and this call sign will be referenced hereafter. Cumulus herein submits a license application to cover the outstanding permit. Attached as Exhibit A is a calculation of the transmitter power output for FM translator W265CB.

There are two special operating conditions/restrictions listed on the W265CB permit. The first condition states that an application for license, FCC Form 350, must be on file prior to commencing program tests with the facilities authorized in the permit. The submission of this instant application satisfies the condition.

The second condition states that Cumulus will reduce the power of W265CB or cease operation to insure persons with access to the site are not exposed to radio frequency radiation levels above the limits. Cumulus states that it will, in cooperation with other tower users, reduce

the power of W265CB or cease operation, as necessary, to insure that persons having access to the tower will not be exposed to radio frequency electromagnetic fields in excess of the FCC's guidelines. Based on the foregoing, it is believed all conditions on the W265CB construction permit have been satisfied.
