Dear Applicant:

This refers to the above-captioned minor application to change location and channel.

Coordinate Discrepancy. Our study reveals a discrepancy between the proposed coordinates listed in the application and the coordinates specified in the tower registration database. Specifically, the application lists the coordinates as 39° 32' 38" NL, 121° 35' 19" WL in the North American Datum of 1927. These coordinates convert to 38° 32' 38" NL, 121° 35' 23" WL in the North American Datum of 1983 (NAD 83). However, tower registration #1031929 lists the coordinates as 39° 32' 38.3" NL, 121° 35' 18.7" WL (NAD 83). Please amend all pertinent sections of the application to specify the correct coordinates, or correct the antenna structure registration to specify the application's coordinates.

Action Withheld 30 Days. Further action on the subject application will be withheld for a period of 30 days from the date of this letter to provide an opportunity to respond. Failure to respond within this time period will result in the dismissal of the application pursuant to 47 C.F.R. § 73.3568. Amendments must be filed in the same manner as the original application.

Sincerely,

**James D. Bradshaw
Associate Chief
Audio Division
Office of Broadcast License Policy
