

# **EXHIBIT 28**

## **Explanation of Exhibit 29**

Exhibit 29 is the certification from Jampro Antennas, Inc. Showing that the measured composite directional antenna pattern does not exceed the licensed composite directional pattern at any azimuth including those specified in the special operating conditions of the construction permit. Exhibit 29 also certifies the antenna measurement procedures comply with 47 C.F.R. Section 73.1690(c)(2) and describes the procedures used to measure the directional antenna pattern.

Exhibit 29a shows the 1 mv/m 60. dbu contour and the location of the city of license.
