Burns, OR 97720

Re: Starlight Broadcasting LLC (Starlight)
KYQT(AM), Burns, OR
Facility Identification Number: 62265
Special Temporary Authority (STA)
BESTA-20180122AAY

Dear Mr. Pruett:

This is in reference to the request filed on January 22, 2018. Starlight requests a further extension of the STA originally granted on October 28, 2016, and last modified on July 28, 2017, to operate from an alternate site to allow time to file the required FCC Form 301 application (due to loss of the licensed site).¹ In support of the request, Starlight stated that additional time is needed to file the application.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA is hereby GRANTED, and Starlight may continue to operate with the following facilities:

¹ KYQT(AM) is licensed for ND operation on 1230 kHz with 1 kW day and night.

Geographic coordinates	43° 34' 59" N, 119° 03' 14" W (NAD 1927)
Frequency	1230 kHz
Hours of operation	Day and Night
Operating power	0.06 kW
Antenna type	Long wire antenna (30 feet vertical run, 100 feet horizontal run)
Antenna efficiency	285.8 mV/m/kW/km

Starlight must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR 1.1310.

This authority expires on **August 13, 2018**.

Sincerely,

A handwritten signature in blue ink, consisting of a large loop followed by a series of connected strokes.

Joseph Szczesny, Engineer
