ENGINEERING REPORT

---

Catholic Views Broadcasts, Inc.  
K19ER, St. Paul, MN, Minor Modification Application

**EXHIBIT 8 – ENGINEERING STATEMENT**

**LPTV MINOR MODIFICATION**

Catholic Views Broadcasts, Inc. (“Catholic Views”) is the licensee of K19ER, the LPTV channel 19 station at St. Paul, Minneapolis. By this minor modification, Catholic Views proposes to replace its Andrew ALP8L1-HSW transmit antenna with an Andrew ALP8L12-CSW-19 transmit antenna. The antenna centerline height and ERP are unchanged by this proposal. No changes are made to the technical parameters by the proposed antenna change.

Because the horizontally-polarized signal is unchanged in all directions by this proposal, no new interference is predicted to result by the proposed antenna change.

As previously indicated in the licensed application (FCC File Number BLTTL-20030321AAM, Exhibit 7), the CP coordinates appear to be listed in NAD83 (N44-58-34 W93-16-21). The herein specified coordinates are in NAD27 (N44-58-34 W93-16-20), as required.
